DETAILED ACTION

Response to Amendment

This communication is in response to the Appeal Brief of 5/29/2009. Accordingly, Claims 17-25 are currently pending in the application.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ronald Faggetter on 9/10/2009. Ronald Faggetter also confirms that the election of claims 17-25 made on 3/14/2008 was made without traverse.

The application has been amended as follows:

-Claims 26-39 has been cancelled.

Allowable Subject Matter

1. Claims 17-25 are allowed.
2. Claim 17 is allowable over the prior art of record since the cited references taken individually or in combination fail to particularly disclose **wherein each of said switch modules is communicatively connected through a dual channel to each clockwise**

Art Unit: 2416

rotator and to each counterclockwise rotator and wherein at least two of said

clockwise rotators have different phases and at least two of said

counterclockwise rotators have different phases. It is noted that the closest prior art

Beshai (US 6876649) in view of Langevin et al. (US 20030081548) shows a packet

switch comprising edge module pairs and a plurality of space switches in which the

space switches is a single stage rotator-based switch. However the stated prior art fails

to disclose or render obvious to the above underline limitations as claimed.
